

# Coupon Trader

Information Technology Department  
Birla Vishvakarma Mahavidyalaya (An Autonomous Institution)

## Objective

In this current era of digitalization, the top Fintech companies, like Paytm, PhonePe, BharatPe and so on are providing so many coupons for each transaction to their user. These coupons are mostly unusable and short-term usable.

To solve this problem, we are introducing a platform called "Coupon Trader" where the users can sell their unused coupons and can also buy them at the same time.

## How does it work?

#1

### Account Authentication

Create a user account and fill the necessary credential to login using Username and password.

#2

### Search for Coupons

Find the Coupon that you need, filter it via categories and view the details of the Coupon and purchase it.

#4

### Sell your Coupon

Add your unused Coupons on sell via platform and earn money.

#3

### Inquiry for Coupons

Ask for the Coupons in inquiry section that are not available on the platform.

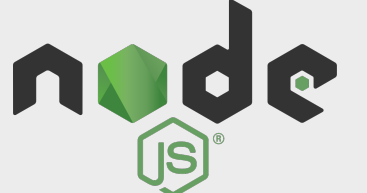

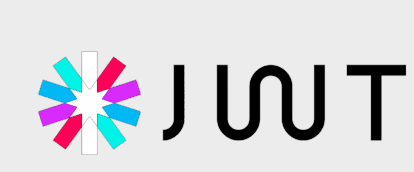

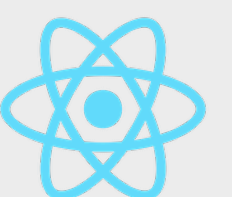

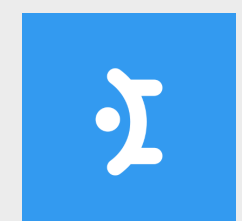

## What is Coupon Trader?

A platform for individuals to share and exchange coupons from various online retailers and service providers.

The ultimate goal of the website is to provide a solution for individuals to save money on their online purchases by sharing and trading coupons with one another.
